

8th BEFORE REALITY Conference Retrospective

An inspiration for CAE experts

Between May 20 and 22 2019, the CAE community experienced another successful conference by BETA CAE Systems.

Held at the Hilton Munich Park, the 8th BEFORE REALITY Conference, offered the opportunity to engineers to share their new inspiring work, innovative ideas, success stories, and demonstrate how state-of-the-art engineering with vision and determination, together with the right tools and methodologies, can take product design to the next level.

More than 300 guests from more than 100 companies and academic institutions, joined the engineering personnel of BETA CAE Systems to share their work, pass their experience, exchange their thoughts, and promote their requirements.

Focused on numerous disciplines and industries, 99 presentations and 28 demos, kept the attention of the audience unabated, composing the main body of the event. The arrangement of the presentations according to subject relevance, allowed the attendees with similar interest to get to know each other, and offered fruitful ground for discussions on our software's capabilities in their field of interest.

The keynote speech of Mr. Kenji Takada (Honda R&D Co., Ltd. Automobile R&D Center) and the featured presentation of Mr. René Gosselin (RENAULT) guided us through their filled with challenges engineering journeys and their effective solutions using our software suite.

Presentations on the latest developments on SPDRM, KOMVOS, ANSA, EPILYSIS, META, and RETOMO, highlights of the future developments, and demonstrations of the newest NEERE, and ACP OpDesign, were also a part of the event's agenda.

The technical gallery (showroom), organized in different application areas and disciplines, offered the unique opportunity to the participants to exchange views with our support and development engineers and discuss on current practices and requests for future developments.

Among the Conference's highlights were also the Gala Dinner, which offered a chance for relaxed conversation and entertainment, and the acknowledgement of our trusted long-term partners during the event's closure.

We at BETA CAE Systems thank and congratulate the participants for their contribution to the success of the event. We are looking forward to hosting you again during one of our following events.
