## International CAE conference 2017

November 6-7, Vicenza, Italy

BETA CAE Systems will be a proud Platinum sponsor of the International CAE Conference 2017. As in the previous years, through this event, participants will be able to meet with our expert engineers at our booth and be introduced to the advanced functionality of our software products while also be informed about the new tools and solutions developed to further enhance your CAE processes.

Don't miss the three presentations of ours to this event:

**"Design optimization of a Free-Fall-Life-Boat (FFLB) using Fluid Structure Interaction and Kinematics analyses",**

**"A dynamic finite element model to determine in-situ biomechanics of a running shoe", and "**

**ACP-OpDesign, Optimal Design Gateway: Reveal the path to optimized products".**

Demonstrations of our solutions will be also included in the event's agenda.
