

BETA China and Dongfang International Container explore simulation technology in the container industry

January 15, 2025

On January 15th, the technical team from BETA CAE Systems China visited Dongfang International Container (Qidong) Co., Ltd. for an insightful technical exchange. During the meeting, the two sides engaged in an in-depth discussion on the innovative application of BETA's products within the container industry, focusing on simulation technologies and their future trends, especially in the area of intelligent simulation.

Both teams emphasized the importance of continued communication and collaboration, and agreed to further explore opportunities for integrating advanced simulation technologies to drive innovation and improve the container industry's operations. Through their combined expertise and resources, BETA China and Dongfang International Container are committed to advancing the application of intelligent simulation technologies in the industry.
